World Wide Joint Training and Scheduling Conference 2006-1

Defense Threat Reduction Agency Overview

Linda Qassim

March 27, 2006

Overview

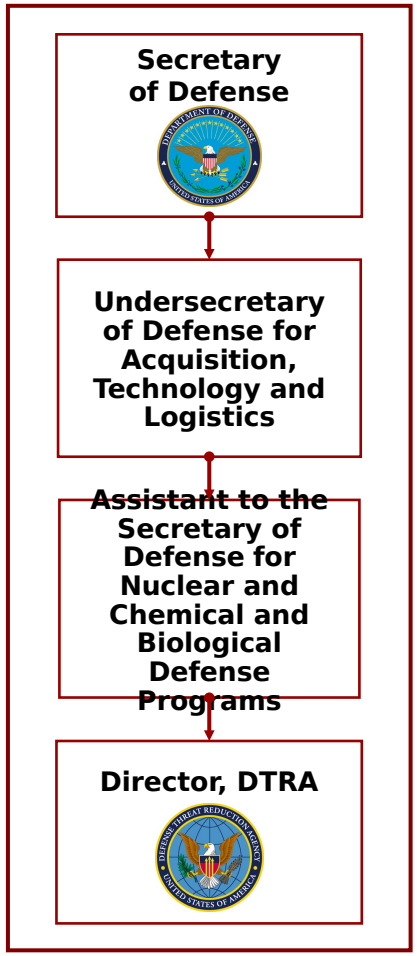
- Agency Mission and Organization
- Responsibilities within CJCSI 3500.01B
- Accomplishments and Way Ahead

Mission

- The mission of the Defense Threat Reduction Agency is to safeguard the United States and its allies from weapons of mass destruction (chemical, biological, radiological, nuclear and high-yield explosives) by providing capabilities to reduce, eliminate and counter the threat and mitigate its effects.

Command Structure

Leadership Structure



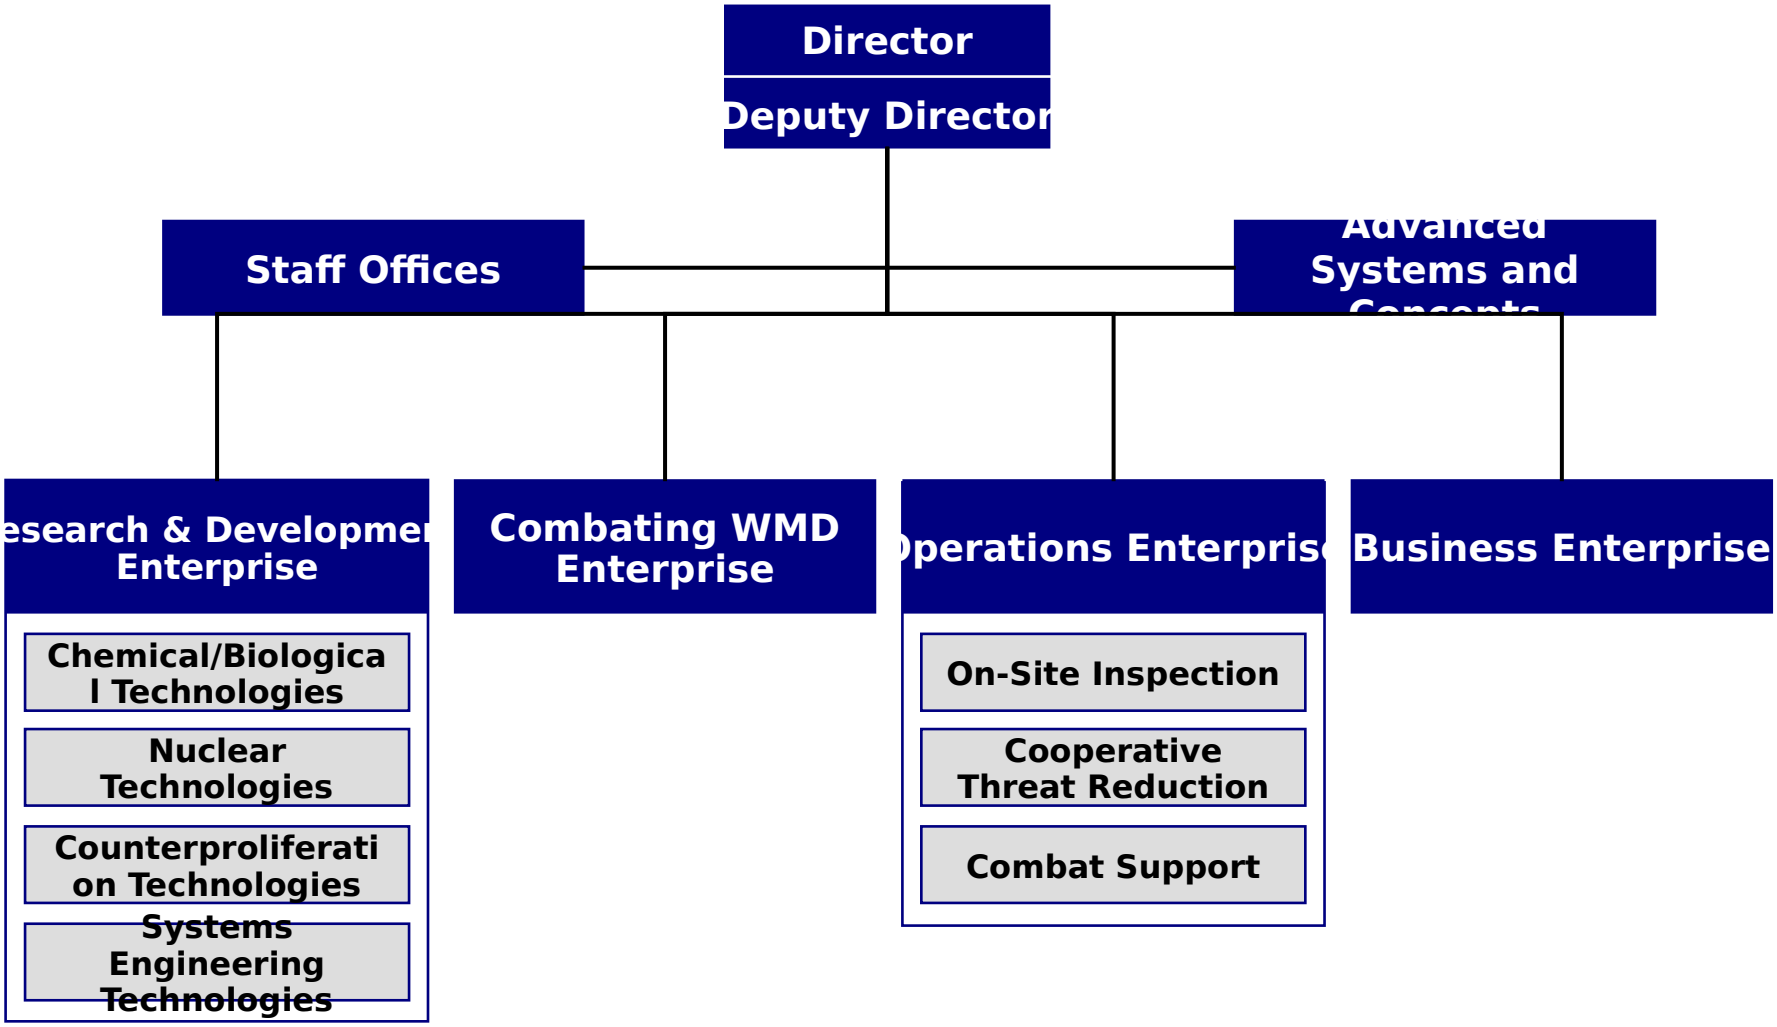
Secretary of Defense
Undersecretary of Defense for Acquisition, Technology and Logistics
Assistant to the Secretary of Defense for Nuclear and Chemical and Biological Defense Programs
Director, DTRA

Headquarters Facility

Defense Threat Reduction Center
Ft. Belvoir, VA

Reporting to the Assistant to the Secretary of Defense for Nuclear and Chemical and Biological Defense Programs

Organized according to function

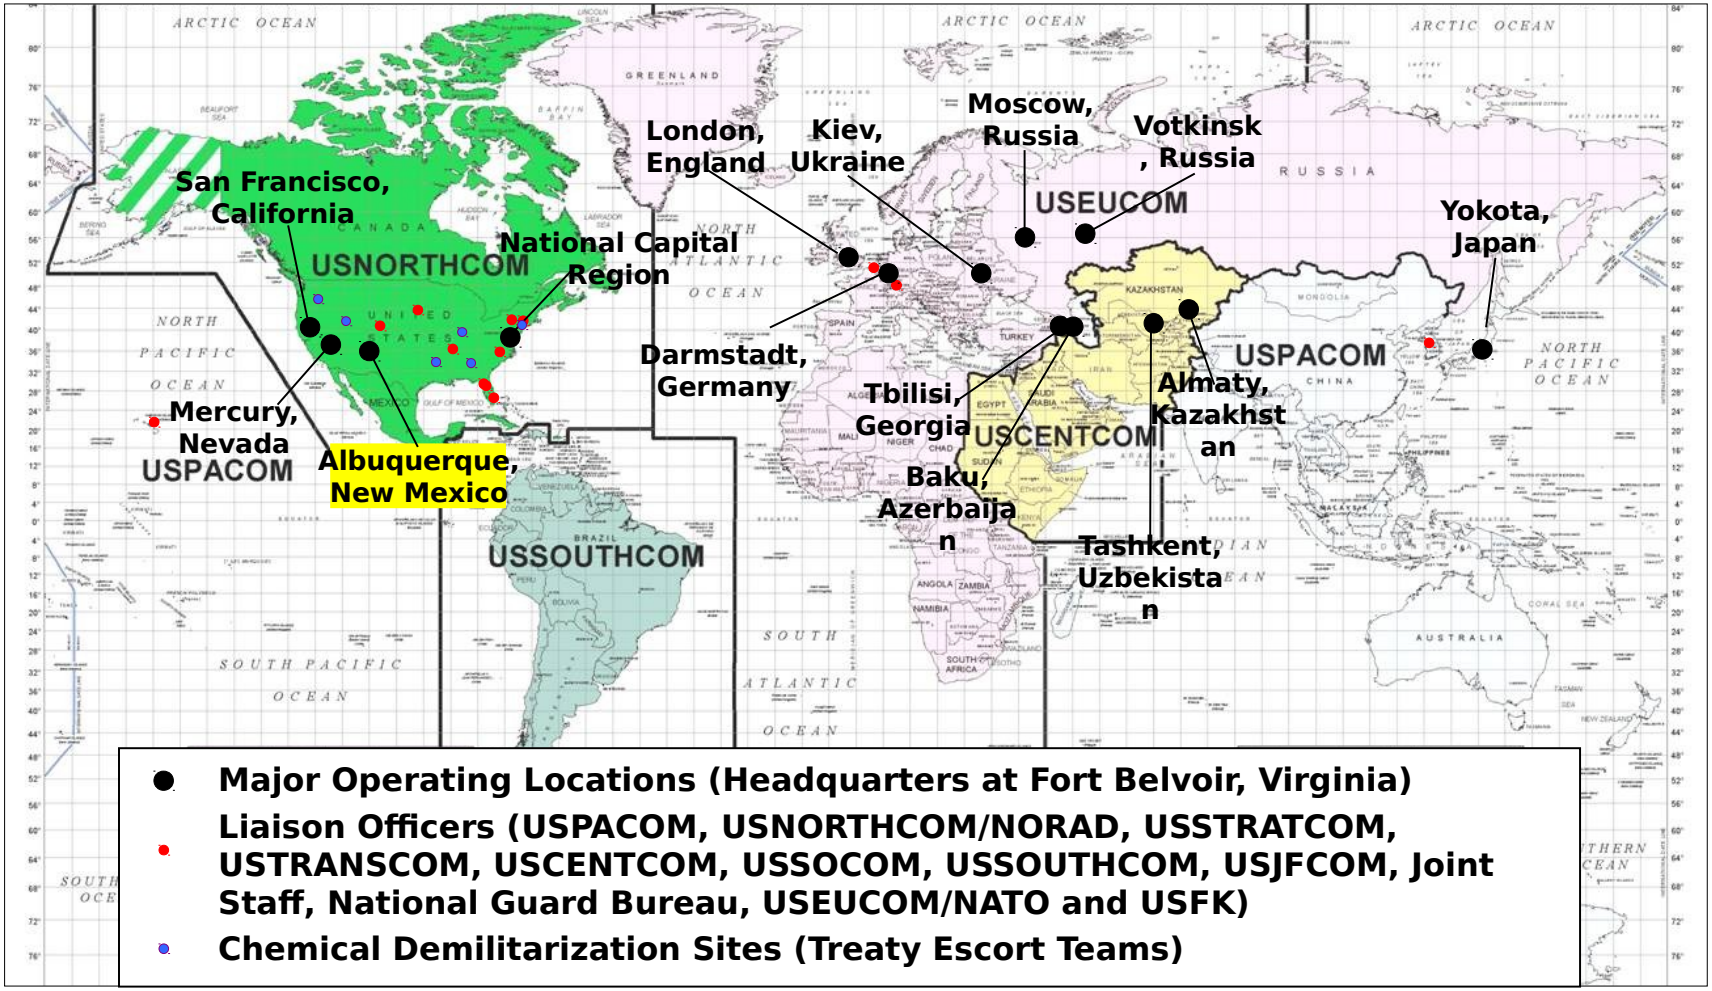


"Go-to" agency for combating WMD

The Department of Defense created DTRA as a combat support agency to focus department capabilities in the fight against weapons of mass destruction.

DTRA supports the three pillars of the National Strategy on Combating Weapons of Mass Destruction: nonproliferation, counterproliferation and consequence management. The agency also directly supports U.S. Strategic Command in combating WMD.

Global Reach



Customers and Partners

Joint Staff and the Unified Combatant Commands

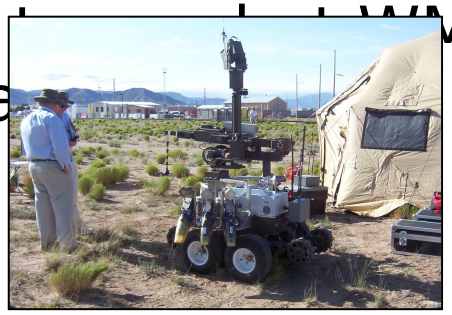
NATO and Allies

Military Services

DoD and Other Federal Agencies

Unique support to the warfighter

- Integrates operations with research and development to provide crucial technologies and tools to combat WMD
- Provides reachback capabilities that incorporate modeling and simulation tools with in-house WMD expertise
- Creates solutions to WMD problems for the Combatant Commands, the Joint Staff, the Services and the rest of DoD
- Plans, integrates and synchronizes DoD-wide efforts for USSTRATCOM [illegible]MD through the Center for Comba[illegible]



CSA Responsibilities Within CJCSI 3500.01B

- Developing a comprehensive plan detailing their training objectives to meet assigned missions and specific combatant command JMETL requirements.
- Schedule and publish joint training event participation within the respective supported command's JTPs, the respective CSA's ATP, and the Joint Training Master Schedule (JTMS)
- Submit AMETL by 15 Dec, annually.
- Forward ATPs and AMETLs via JTIMS to supported combatant commands, USJFCOM, and the Joint Staff by 15 July, annually.

- Nominating applicable training courses for inclusion in Joint Training Course Database (JCTD). Assist USJFCOM in Joint Course Accreditation for courses in which the CSA has subject matter expertise.
- Nominating appropriate facilities for inclusion in JNTC.
- Supporting the CJCS Doctrine and Joint Center of Lessons Learned (JCLL) with subject matter experts.

Additions expected in CJCSI 3500.01C

A Workshop Approach

- Training information shared through Standing Working Groups
- Informal, working sessions on directorate premises to build AMETL and ATP.
- Agency lead provides templates and tools to assist in gathering data. Works with client to produce their portion.
- Client makes their lessons learned and AARs available for review to determine training gaps. Works with agency lead to identify training audiences, objectives and events
- Data is input and available through NexGen JTIMS

Accomplishments

- AMETL
  - AMETL tasks included in UJTL 5.0
  - DRRS/JQRR reporting on AMETL tasks
  - COCOM site visits identified command-linked tasks
- ATP
  - Guidance from newly assigned Director incorporated
  - Supporting Tasks and Command-Linked Tasks for all directorates incorporated
  - Improved training objectives linked for events including linkage to individual mission certification programs
  - Event Summaries and Timeline dynamically updated and linked to JTIMS
  - Improved TAB X – Individual Training for mission certification included
  - Requested feedback from JFCOM

DTRA AMETL

AMET #	UJTL Code	Title	OPR
1	SN 3.2.4.1	Support U.S. Strategic Deterrence	Operations Enterprise - Combat Support Directorate
2	SN 3.4.4.1	Support Mission Assurance / Force Protection	Operations Enterprise - Combat Support Directorate
3	SN 9.2.4	Support Chemical, Biological, Radiological, Nuclear and High Yield Explosive (Weapons of Mass Destruction) (CBRNE (WMD) Defense	Research and Development Enterprise – Directorate OPR under review
4	SN 9.2.4.1	Support Consequence Management	Operations Enterprise - Combat Support Directorate
5	SN 9.3	Conduct Arms Control Support Activities	Operations Enterprise – On Site Inspection Directorates
6	SN 9.4	Support Nonproliferation Activities	Operations Enterprise – Cooperative Threat Reduction Directorate
7	SN 9.1.4	Provide Support to Counter and Defeat CBRNE (WMD) and Other Threats	Research and Development Enterprise – Directorate OPR under review

AMETL Considerations

- CSART Findings 2005
  - Current AMETL generally does a good job of describing the DTRA mission
  - Current AMETL needs maintenance–not static
  - Readiness is not easily measurable using the current conditions and standards
- DTRA Reorganization
  - IOC of STRATCOM Center for Combating WMD
  - Introduction of Enterprises

JWFC FY 06-09 ATP Review

Description		Remarks
TAB A	Commander's Guidance	Guidance was a little too lofty. Guidance requires specificity and be more directive
TAB B	Mission Capability Matrix	Built in accordance with JTS
TAB C	Agency Mission Essential Task List	Too many conditions and standards.
TAB D	Training Audience Assessment Matrix	Move assessment plan to Tab A. Include supporting tasks in assessment
TAB E	Training Objectives, Audience, Methods Matrix	Shortfall identification from assessment process
TAB F	Event Summaries	Contained the mandatory information. Expand on the detail in future iterations
TAB G	Event Timeline	Contained mandatory information
TAB H	Interoperability Requirements	More interoperability guidance required
TAB X	Individual Training	Valuable addition, consider for inclusion in JTS

Tab X – Individual Training

- Added to ATP for Agency use
  - Evolutionary process
  - Used most mature programs for first iteration of Tab X
  - Division mission certification programs collected
  - Next iteration, will include instructor certification in some programs
- Input data into agency Learning Management System (LMS)

Joint Accreditation

Topic: Joint Accreditation of Individual Training Courses and Instructors

Status: JFWC designated office accredits joint courses. No one is assigned instructor certification.

Issue: Joint Accreditation criteria needs to be reviewed / Process needs to be more visible / No process in place for instructors

Impact: Joint Accreditation designation will lose significance in the joint training arena. Organizations create own instructor certification programs. Standards?

Recommendations to Resolve Issue:

DTRA support to accredit Joint CBRNE courses

-- Use DTRA CBRNE SME's to review course content

-- In Resident Courses

-- Distance Learning Courses

DTRA support to prototype joint instructor certification program

Way Ahead

- Continued improvement to AMETL
- Continued improvement to ATP to include full integration of ATP in NexGen JTIMS

GOAL:
Improved coordination and integration with Joint Training and Readiness Community
